Mad. Bruant.

No other Geranium on our grounds has ever attracted so much attention, or been so much admired at this beautiful new Aureole flowered variety. It is entirely distinct from any Geranium in cultivation, so much so that visitors on passing through the greenhouses, where hundreds of other varieties are in bloom, single it out at once as the most beautiful and attractive in the whole collection. It might with propriety be called the Pansy flowered Geranium, so distinct is it from the ordinary style. The plant is a vigorous grower, making nice compact plants, and very free flowering, producing fine large trusses of blooms in great profusion, individual flowers large, of fine shape, center of flower white veined with carmine lake, the five petals regularly and distinctly bordered with bright solferino. The arrangement of color is exquisite and entirely new in Geraniums. An excellent variety for pot culture, being a continuous bloomer Winter and Summer. See cut.

Exposition de Lyon.

Outer edge of each petal rosy carmine, shading away to white at the center, the deeper shade often forming a ring of color like an aureole about the eye, and the veins very prominent and of bright carmine. A most attractive novelty.

J. Sallier.

A vigorous growing and remarkably free flowering variety. Trusses very large and of perfect form composed of single flowers entirely distinct from any existing variety: edges of petals carmine lake, the center is washed in tints of rose and bluish Heliotrope color, the upper petals are veined carmine and marked with orange at the base. This is one of the most distinct and valuable Geraniums of the year and we recommend it highly.

Camille Bernardin.

Very large trusses, individual florets large and well formed, plant of excellent free flowering habit; rosy peach veined with bright rose and streaked and marbled with pure white. This is one of the best varieties we have seen in this class.

Le Rhone.

A gorgeous rosy scarlet, with a white eye and white blotches on the upper petals, the upper part of the blotch shading into carmine at its junction with the ground color: floret quite circular, of the largest size; very distinct; catches the eye at once. Gives every promise of being a showy and sturdy bedder.

Fleur Poitevine.

Another very distinct colored variety. Large single flowers; color brilliant rosy carmine, marbled and striped with pure white, producing an aureole of deep orange carmine at the center; the plant is dwarf but robust and wonderfully free flowering.

16 Popular Annuals for a Silver Quarter, 25 Cents.

QUITE a number of our customers use only Roses and other plants in their garden and neglect to plant any flower seeds. We desire to induce every one, including many who at present do not beautify their homes by any flowers, to plant at least a few easily grown annuals. Our flower seeds are the best it is possible to obtain, and to introduce them into thousands of new homes this year we offer the following great bargain collection at the lowest prices:

NEW IMPERIAL HYBRID IPOMOEAS—A new race of Ipomoeas that is difficult to describe; of wonderful and beautiful colors, some variegated, marbled, striped, flamed and exquisitely margined in marvelous combinations. Flowers of immense size; vine of rapid growth. Finest mixed.

NEW SWEET PEAS, GILT EDGE MIXTURE—We have made a mixture in proper proportions of all the new and distinct varieties, and can recommend it as an extra fine strain of Mixed Sweet Peas.

NEW DOUBLE CORN FLOWER—It is has been so perfected that fully 80 per cent. of the flowers are double and semi-double; they are also increased in size and present many bright colors and distinct markings which have been hitherto unknown.

LITTLE GEM SWEET ALYSSUM—The plants are very dwarf, spreading, and remarkably uniform in growth; they only grow three to four inches high, and each plant spreads so as to completely cover a circular space twelve to twenty inches in diameter.

ASTER, NEW FAMOUS MIXTURE—Fine mixed varieties of all colors. Very choice.

BALSAM, SUPERB CAMELLIA-FLOWERED—Fine mixed; embraces all the best named varieties and is the finest mixed Balsam seed ever offered.

CALENDULA ORIOLE—This is surpassingly grand and brilliant, far eclipsing any Calendula hitherto known. The extra large double flowers are indescribably rich and glowing in tone, of an intensely bright golden-yellow.

MARGUERITE CARNATIONS, LARGE FLOWERING—Produce perfect double carnations in full beauty, all colors, in four months after sowing the seed in the open ground; grand hardy plants.

NEW GIANT-FLOWERED RED MIGNONETTE—This splendid new Mignonette is undoubtedly the largest and most showy variety in cultivation; the flower spikes are unequalled by any other variety, and the single blossoms are of a striking red color.

NASTURTIUM TOM THUMB—Mixed varieties, including all the best named sorts.

PANSY, EXTRA FINE MIXTURE—Large-flowering, very fine mixed, embracing all the separate colors of German Pansies.

PETUNIA, SUPERFINE MIXED—A fine mixture, embracing all colors, including striped and blotched varieties.

CLEOME PUNGENS, or Giant Spider Plant—The flowers are very showy, of a bright rose color; a luxuriant grower and always in bloom.

New Giant Imperial Ipomoea, or Morning Glory.

Here we have from Japan the new Imperial Ipomoea, or Morning Glory, a new mammoth class of flowers. The garden will lack a beautiful spot if it is without a fence corner or trellis covered with these glorious blossoms. The plants attain a growth of 20 feet by midsummer. The leaves are large, heart-shaped, many of them a rich, dark color, marbled with silvery white or yellow. The flowers are really gigantic, being double the size of the ordinary kind; their main attraction, however, is not their enormous size, but their wonderful coloring. Their varieties of color are infinite, running from snow-white through all possible shades of blue, and of red from palest pink to darkest reds and purples. They are streaked, mottled, striped, marbled and bordered in wonderful fashion, and sometimes show rare shadings of ash grey, bronze, brown and slate-blue, colors rarely found in any other flowers. To gain time, start the seeds in small pots in the house in March or April, and plant in a warm, sunny place. New Giant Single Flowering, mixed colors, Pkt. 10 cts.

New Giant Double Flowering, mixed colors, Pkt. 10 cts; three Pkts. for 25 cts.

New Dwarf Marguerite Carnations, "California Giants."

Everyone knows and admires the Marguerite Carnations. They are invaluable from the fact that they can be treated as Annuals, inasmuch as from seed sown in the open ground in the Spring they come into bloom in 4 months, and flower as freely as the Annual Dianthus, while they possess the beauty and fragrance of the old Carnations, and are hardy, living from year to year. The dwarf, compact, bushy habit and free flowering character of the plant is shown in the illustration herewith. The flowers of perfect form, embrace many brilliant colors, and although of greatly increased size they do not burst the calyx. All will be delighted with this new strain by reason of the grand flowers, freedom of bloom, and the fact that they flower as quickly from seed as do the original Marguerite Carnations, possessing the same delicious fragrance. Finest mixed colors, per pkt. 15 cts.; 2 pkts. for 25 cts.

VELVET LAWN GRASS MIXTURE—It is a compound of Grasses that ripen successively, thereby always presenting a cheerful appearance. Lawnsown with only one or two grasses turn brown under our hot sun and remain in that condition until the cool months of Autumn revive them. The mixture that we offer is one of the best on the market, and can be relied upon to produce the very best results. Sow four bushels to the acre. Weight, per bushel, 14 lbs. Qt. 25 cts., peck \$1.00, bushel \$3.00.

ENGLISH MUSHROOM SPAWN—It comes in bricks, of about one and a quarter pounds each; these, before planting, are usually divided into a dozen parts and the pieces inserted in the bed eight to ten inches apart each way.

Prices on Spawn are net and not subject to discount. Per single brick, 25 cents, or 5 lbs. for \$1.00, postpaid. By express or freight, 10 lbs., \$1.25; 50 lbs., \$5.00. No further discount.

IMPORTANT! NEW TERMS OF SALE!

Of Great Advantage to Purchasers.

We have reduced our prices for plants to a net cash basis of no premiums or discounts, which are so complicated and often misleading. Our treatment to our patrons is in all cases most liberal. Our mottoes, "HIGHEST QUALITY and LOWEST PRICES," are surpassed by none. We guarantee our plants to reach you safely and in good condition. We also warrant our stock first class. Remember that we pay the postage.

GENERAL REMARKS—Our Roses are all grown on their own roots and are plants of strong, hardy constitution and are not forced by any natural or artificial means. This is the most essential point of successful Rose culture, they succeed to grow and bloom where others fail. Our prices are the LOWEST and our stock of the HIGHEST QUALITY.

HOW TO SEND MONEY WITH ABSOLUTE SAFETY.

OUR PRICES ARE STRICTLY CASH—The proper remittance must in all cases accompany the order, and should be inclosed with it.

MONEY AT OUR RISK—All money sent us by Postoffice Money Order, Bank Draft, Express Money Order, or Registered Letter is at our risk and we will be responsible for its safe arrival, and you may select full value for it in plants, seeds or bulbs.

BANK DRAFTS drawn on any city bank and made payable to our order are good and can be had at all banks. If lost the bank will issue a duplicate.

POSTOFFICE MONEY ORDERS can now be had at almost all postoffices, and are absolutely safe. If the letter inclosing it is lost, send us the number, date, amount, the office at which it was payable, a list of what you ordered, and we will fill the order at once, and apply for a duplicate of the lost Money Order, which the Government will furnish in such cases.

EXPRESS MONEY ORDERS are one of the cheapest and best ways of sending money. Perfectly safe, because if lost a duplicate can be had by applying to the Express Company.

 We cannot fill Plant orders for less than 25 cents by mail unless 5 cents is added to pay postage. 

SUNSET—This is a sport from that grand old variety Pearl des Jardins, which it strongly resembles, only that the color is deeper and richer than it is in that elegant variety. Sunset is a great favorite wherever known. The color is a rich golden amber or old gold, elegantly shaded with dark ruddy crimson, resembling the beautiful tints seen in Summer sunset; the flowers and buds are extra large, full, finely formed and deliciously perfumed; it is a strong, vigorous grower and free bloomer, highly recommended both for open ground and house culture. One of the most beautiful Roses we grow. It pleases everybody. Price, 15 cents each; large, two year old plants, 35 cents each.

NEW EVER-BLOOMING ROSE, METEOR—This splendid Rose is one of the brightest colored of all, and must still be considered among the very best for bedding and general planting, as well as for growing in pots and conservatory. The color is a rich velvety crimson, exceedingly bright and striking, and, as shown in the engraving, the flowers are large and regular, fully double and borne on nice long stems. It is a quick and constant bloomer and quite fragrant. Never fails to please. Price, 10 cts., large, two year old plants, 25 cts.

THE BRIDE—This is undoubtedly the finest white ever-blooming Rose ever offered to the public, and we take pleasure in recommending it to all our customers. It is a Rose that supplies a long-felt want. A few of the white ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of the buds and half expanded flowers. The buds are very large and of exquisite form; the petals are of fine texture and substance, and the full flower is very double. The color is a delicate creamy white. The blooms can be cut with long stems, and will last in a fresh state after being cut longer than any known variety. Equally valuable either for Summer or Winter flowering. 10 cts., extra large, two year old plants, 25 cts.

CATHERINE MERMET—One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable, faultless in form and charming in every shade of color, from the purest silvery rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection. Price, 10 cts., extra large two year old plants, 25 cts.

SPECIAL OFFER—For 30 CENTS we will send you the "GRAND" SET of 4 of the best Roses that ever grew. Four sets of "The Grand" for \$1. For 75 CENTS we will send them in two year old size, or 3 SETS two year old size for \$1.75 net.

BRIDESMAID—A lovely new Tea Rose, well worthy of its name, and fast becoming everywhere most popular. It is a sport of the well known Catherine Mermet. Its pointed buds, on long stems, are a lovely pink shade.

The Beautiful and Famous "La France" Set of Everblooming Roses.

RED, WHITE, STRIPED, PINK, CRIMSON, YELLOW AND CLIMBING.

THE LA FRANCE Roses are certainly nearest perfection of all flowers, and nothing can compare with them in the eyes of the true rose lover. A distinctive characteristic of the set is the true La France fragrance by which every one may be known.

Set of 7 Hardy Ever-Blooming La France Roses.

WHITE La FRANCE—It is identical with La France except the color. It is pearly white, sometimes tinted fawn. 10 cents; large two-year-old plants, 25 cents.

PINK La FRANCE—Undoubtedly the most perfect type of a cut-flower Rose; elegant foliage. No variety surpasses it in delicate colors—silvery rose, shaded pink, large, keeps well and of distinct pervading fragrance. 10c. each; two-year-old plants, 25c.

STRIPED La FRANCE—Imagine a lovely Rose with the shape and fragrance of La France, of a rich creamy pink with a silvery gloss, growing deeper at base of petals, the whole beautifully etched and streaked with delicate carmine. 10 cents each; large two-year-plants, 25 cents.

RED La FRANCE—Of a deep rose pink hue. The flowers are produced in wonderful profusion upon long stems, are very large, double and of superb form. 10c. each; two-year-old plants, 25c.

La FRANCE de 1889. New Crimson Hybrid Tea Rose—One notable peculiarity of this variety is its long elegant buds, while expanded flowers are of immense size. Color, very nearly scarlet. The brightest and most brilliant Rose we know. 15 cents each; two-year-old plants, 30 cents.

CLIMBING La FRANCE—Identical with La France in every respect except in style of growth, which in this new variety is of strong climbing habit. Charming peach pink color and exquisite. 15 cents each; two-year-old plants, 30 cents.

YELLOW La FRANCE, (New.)—Mad. Pernet Ducher—A charming Rose and a new shade in this section, being the first with a distinct yellow coloring. The outside petals are sulphur yellow and assume a deeper shade toward the center, with a polished glittering surface like a Water Lily. 15 cents each; large two-year-old plants, 35 cents.

SPECIAL OFFER—For 75 cents we will send the set of 7 Hardy Ever-Blooming La France Roses, or 3 sets for \$2; or the set in large, two year-old plants for \$1.50. In ordering say the "La France" Set.

"Champion" Set Hardy Ever-Blooming Roses.

BALL OF SNOW—(Boule de Nieve)—In this variety we have a hardy ever-blooming Rose of great value. It is a Rose of great size, perfectly double, exquisitely fragrant, pure white in color, and entirely hardy. Invaluable for cemetery planting, or where white flowers are desired, as it blooms freely all Summer. 15 cents each; extra large plants, 35 cents.

CHAMPION OF THE WORLD—A very hardy everblooming Rose; advertised extensively.

The introducer claims that it is the champion in hardness, fragrance, vigor, form and color, and for Winter blooming. While we can not endorse all the good qualities claimed for it, we have found it a remarkably free-flowering hardy Rose, resembling very much Mrs. DeGraw. Color, a rich deep, rosy pink, darker and richer than Hermosa. It is always in bloom and is quite

hardy. 15 cts. each, two year old plants, 35 cts.

DINSMORE—Very similar to Madame Charles Wood, but claimed by the originator to be much stronger in growth and more fragrant. It is a vigorous Rose of dwarf, branching habit, and is fairly loaded down with flowers all Summer long. The flowers are large, perfectly double, of a dazzling scarlet crimson color, with a rich, spicy fragrance. It is entirely hardy and blooms incessantly. 15 cents each; two year old plants, 35 cents each.

MRS. DEGRAW—One of the best Roses for general cultivation. It is entirely hardy and equals the tender sorts in profusion of bloom. From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a strong grower that it is almost impregnable against the attacks of insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden. 15 cents each; two year old plants, 35 cents each.

MADAME MASSON—An excellent Hybrid Perpetual, noted for its constant and profuse bloom. The flowers are large, color a clear, bright Rose, highly perfumed. One of the best for planting. This Rose is a very superb variety, and should be more generally known. Try it. Price, 15 cents each; two year old plants, 35 cents each.

MADAME ALFRED de ROUEMONT—A strong, vigorous grower; begins to bloom at once, and continues until stopped by severe freezing. Pure snow-white flowers, finely tinged and clouded with pale, rosy blush. Large, full and double, fragrant and fine. Price, 15 cents each; two year old plants, 50 cents.

SPECIAL OFFER—For 75 cents we will send, free by mail, the above set of six Hardy Ever-Blooming Roses, or for \$1.25 we will send two sets of the above Roses. This set in large, two year old plants for \$1.25. No discount on this offer

The Five Hermosas, Perpetual Bloomers.

Price, 10 Cents Each. Large, two year olds,
25 Cents Each.

The Best for House or Garden Culture. Constantly in Bloom.

RED HERMOSA—Color, a rich, dark velvety crimson, scarlet, literally loaded with flowers at all times; extra good for the house or garden.

WHITE HERMOSA, or Marie Lambert—Pure white. It has been called Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite valuable, for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots.

PINK HERMOSA—A clean, healthy grower; color, bright pink. It is grown largely in New York cemeteries for its hardiness and continuous blooming.

YELLOW HERMOSA, or Coquette de Lyon—This is a most charming yellow Tea Rose, a good grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. A Rose that will please all.

BLUSH HERMOSA—This elegant new Tea Rose has been thoroughly tested, and has given perfect satisfaction. It is a strong and robust grower, and a constant and profuse bloomer. The color is a soft white blush, delicate rose center shaded with fawn, the flowers are of large size, very full and delightfully sweet.

SPECIAL OFFER—We will mail the 5 Hermosas, one of each, for 35 cents. The set in two year old plants for 75 cents. No Further Discount.

WHITE HERMOSA.

CAROLINE MARNIESSE, A GRAND ROSE FOR CEMETERY PLANTING.

Continually in Bloom and Perfectly Hardy.

A most valuable Rose for general cultivation, and especially for planting. As a perpetual bloomer we have never found its equal. Even during a recent dry season, when most of the other so-called perpetual bloomers were so affected by the drought as to show scarcely any blossoms, the rows of Caroline Marniesse were a continuous mass of bloom. There was not a week from late May till the middle or latter part of October that large quantities of blossoms could not have been picked from these plants. And under even ordinarily good conditions of cultivation, purchasers of this Rose may depend upon having equally good results. The growth is low and somewhat spreading, making it especially valuable for the borders of beds. It is also very effective for massing in any position. Plants of the right age for transplanting will not have the height of some of the more rampant growing sorts; but the amount of flowers produced will be vastly greater. The flowers are pure white, sometimes slightly tinged with pink, produced in great abundance, the plants often being literally covered with them; of medium size, very double and very sweetly tea-scented. To the average amateur, especially, while they appreciate and delight in the beautiful flowers, have little time or study to give to their culture, this Rose will prove a most valuable acquisition.

Price, 15 cents each; two for 25 cents. Large, two year old plants, 40 cents each.

The Old English Sweetbriar Rose. No Garden Should be Without One Plant at Least.

EGLANTINE—Very desirable for shrubberies and general planting. Flowers are bright pink and single, but the exquisite fragrance of the flowers, leaves and young branches in the early Spring, frequently perfumes a whole neighborhood. Price, 25 cents each; large, two year old plants, 50 cents each.

NEW YELLOW SOUPERT MOSELLA.

THE Clotilde Soupert Rose is famous the world over for its freedom of bloom and splendid flowers, and is the synonym for all that is beautiful in Roses. Whether it is grown in pots or in the open ground, it can always be depended upon to give a bountiful and continuous supply of buds and bloom throughout the entire year. They never fail to grow and bloom in almost any situation.

New Yellow Soupert, "Mosella."

This splendid novelty we have just secured from Germany; its origin is almost identical with that of the Soupert, a cross of the Polyantha and the beautiful Tea Rose, Madame Falcot. It blooms in profuse clusters of three to five flowers, which are very double, ball-shaped and open like a Camelia flower. The petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals, then deepening to an orange yellow. The plant is dwarf, bushy and free-blooming. We take great pleasure in offering this fine Rose this year; it is sure to be a popular companion to the original Clotilde Soupert.

Price, 15 cents each; two for 25 cents; large, two year old plants, 40 cents each.

New Pink Ever-Blooming Bedding Rose—Pink Soupert.

A seedling from that premier Bedding Rose, Clotilde Soupert, of which we have spoken so highly. "Pink Soupert" inherits all the grand garden qualities of its parent and is a clear pink throughout, bright and attractive; the coloring deepens in some flowers to cherry red, and in others it less-

ens to clear Hermosa pink. The profusion of bloom is wonderful, the whole plant being a mass of flowers. No rose can possibly excel this for outdoor bedding, and none can be more attractive. It is compact and sturdy in habit, and so hardy for an ever-blooming Rose that it will remain out all Winter safely with slight protection. Price, 15 cents each, two for 25 cents; large, two year old plants, 25 cents each.

CLOTILDE SOUPERT.

Three Magnificent New Roses.

CLIMBING METEOR.

This New Rose, now introduced for the first time, might more properly be called a Perpetual Blooming Climbing General Jacqueminot. Though a sport from the finest of all Hybrid Teas—Meteor—it is much larger, and of a deeper, richer color, equalled only by the peerless Jacqueminot, and will produce twenty blossoms to Jacqueminot's one. It is a Rose which will make ten to fifteen feet of growth in a season, and show a profusion of bloom every day. Foliage, strong, healthy and luxuriant. Buds exquisite; flowers, large, beautifully shaped, and of that rich, dark velvety crimson color seen only in the Jacqueminot. Much deeper and richer than Meteor. We do not hesitate to pronounce it the finest Rose in existence for Summer blooming, as it will make a large growth and is loaded with its glorious blossoms all the time. For Winter blooming it has few equals in beauty and probably none in profusion. Just the rose to train up in a conservatory or bay window, where its exquisite blossoms will show to wonderful advantage. Price, 15 cents each, two for 25 cents; large, two year old plants, 50 cents each.

THE FLORAL WONDERS OF THE CENTURY.

The Celebrated Gold Medal "Rambler" Rose Family Adapted to the Entire Country.

THE NEW PERFECTLY HARDY YELLOW CLIMBING ROSE—YELLOW RAMBLER.

Withstanding Zero Weather With Impunity.

THE flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of Crimson Rambler. Color, a decided yellow. Many Roses which are described as yellow have really only a creamy tinge. Yellow Rambler is a clear, decided yellow. Flowers of moderate size, borne in large clusters, often bearing from 120 to 150 flowers in a cluster, very sweetly scented. Flowers last 3 to 4 weeks without fading, and a large bush in full bloom is one of the most beautiful and magnificent sights imaginable. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. It is bound to attain great popularity. Buy the only real hardy yellow Climbing Rose known at the present time. Price, 25 cts. each; large, two year old plants, 50 cts. each.

GOLDEN RAMBLER (Allister Stella Gray)—In habit of growth and profusion of bloom this is similar to the famous Crimson Rambler. It is a vigorous grower and blooms profusely both early and late. The straw and orange yellow flowers, of small size, are borne in large, handsome clusters—a big bouquet in each cluster. Price, 20 cts. each, 3 for 50 cts.; large, two year old plants, 40 cts. each.

THE PINK RAMBLER (Euphrosyne)—Identical with Crimson Rambler in growth, hardiness and richness of bloom. The color of flower is pure shiny rose; the half open bud brilliant light carmine. This beautiful variety is distinct and fully the equal of Crimson Rambler. Price, 20 cts. each; large, two year old plants, 50 cts. each.

THE WHITE RAMBLER (Thalia)—A blood relation to Crimson Rambler. The habit of growth, manner of blooming and form of flowers is identical with that grand variety. The flowers are superb, pure white in color, and are produced in splendid large clusters of the same distinct pyramidal form found in no other family of Roses. Price, 20 cts. each; large, two year old plants, 50 cts. each.

"CRIMSON RAMBLER"—It is of rapid growth; the flowers are produced in trusses, pyramidal in shape, good specimens measuring nine inches from base to tip and seven inches across, fairly covering the plant from the ground to the top, so that it is a mass of glowing crimson. The color is superb, and remains strong and vivid to the end; plants in our grounds retained the bloom for two months. The profusion of bloom is marvelous. A correspondent stated that on one shoot he counted over three hundred blooms. It is essentially a garden Rose, but makes a magnificent specimen in pot or tub. NEW TEA ROSE, JEWEL.

New Tea Rose, Jewel, the Rose of Many Colors.

We now offer the most remarkable Rose in cultivation, and extremely novel and beautiful. Jewel produces flowers that range in color from dark orange yellow to crimson, variegated, blotched, mottled, etc. A plant in bloom shows no two flowers alike. Some will be dark yellow, others light yellow, buff, light and dark crimson, pink, blush, etc., while others will be beautifully variegated. As may well be imagined, the sight which such a plant in bloom presents is a novel and beautiful one. It is a true Tea Rose, the flowers being large and delightfully fragrant, and in both bud and bloom exquisitely beautiful. It is a free grower and profuse bloomer, especially in the open ground. As a Rose novelty this is the most remarkable ever introduced, and, as may well be imagined, creates a sensation wherever seen. Price, 15 cts. each, two for 25 cts.; large, two years old plants, 50 cts. each.

FRANCOIS DUBREUIL—A new red Tea Rose of unusual merit, with fine, large and double flowers, which in color are equal to the best of our deep-colored Hybrid Perpetuals. The flowers are large, very full and double, with thick, regularly arranged petals. Color, deep crimson with velvety shadings, rich and fine; buds of large size and of beautiful shape for cutting. A grand bedder, of strong, free growth, and profuse bloomer. Price, 20 cts. each; large, two year old plants, 50 cts. each.

WHITE COCHET—This peerless New Rose has all the charming characteristics of its parent, Maman Cochet, with the exception of its color which is a lovely pure white with the slightest tinge of pink, which only becomes apparent during the hottest Summer weather. It is the best white Summer bedding Rose we know of, being an exceedingly strong grower, with extra large buds and bloom. Price, 20 cts. each; large, two year old plants, 50 cts. each.

PPINCESS BONNIE, New Crimson Ever-Blooming Rose—A new ever-blooming Rose of great promise for outdoor bedding. It is one of the most prolific blooming Roses we know; the color is a grand, solid crimson, just the shade wanted in the ever-blooming section, the base of the in-

ner petals prettily marked with clear white, the fragrance is delightful, superior to most, if not surpassing any Rose in its class, and equal to the finest hybrid perpetuals. It is a most valuable addition to our garden Roses, and will prove valuable also for Winter blooming. Price, 20 cts. each; large, two year plants, 50 cts. each.

Carnations—Fragrant, Ever-Blooming Gems.

No plant excels the everblooming Carnation Pink: rivaling the Rose in beauty of colors and shades, equaling in lasting perfume and even excelling it in profusion of flowers. Easily grown, and bloom freely, either as bedding plants in Summer or in the greenhouse or window garden in Winter.

DAVALLIA STRICTA—One of the finest ferns for growing as a decorative plant in the room or planting out. The fronds are of strong texture, and a beautiful green shade.

LASTREA ARISTATA VARIEGATA—This most beautiful variety has a broad band of yellowish green running through the pinnacles along the course of the radius; very ornamental. Price, 25 cents each.

NEPHROLEPSIS PHILLIPENSE, or Miniature Sword Fern—A very pretty narrow leaved variety, with dark green foliage, magnificent to fill in a wire hanging basket.

PTERIS ARGYREA—(Silver Fern.)—With variegated foliage, fronds large, light green, with a broad band of silvery white down the center of each, very distinct.

PTERIS TREMULA or SHAKING FERN—One of the finest Ferns for house decoration; rapid grower; large, handsome fronds. Makes magnificent specimens. Easily grown.

SWORD FERN—(Nephrolepis Exaltata.) In well-grown specimens the fronds attain a length of 6 or 7 feet, but only 1 to 3 inches wide, and like plumes, arching over in every direction in a most graceful manner. Excellent for outside planting in shady borders. It is a very fine plant for hanging pots or baskets on the piazza in Summer, and conservatory or window in Winter. 25 cts. each.

"THE BOSTON SWORD FERN"—In the vicinity of Boston, no other plant is used so extensively as this graceful Nephrolepis, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of 4 feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. 35 cts. each; strong plants, 50 cts.

LITTLE GEM CALLA LILY—This little pigmy rarely exceeds 12 inches in height and blooms abundantly. The flowers are not more than half the size of the common variety, and therefore can be used with telling effect in bouquets. It is in every respect superior as a house plant to the larger growing variety. Price, 15 cts. each, 4 for 50 cts. Large plants, 50 cts. each.

BLACK CALLA (ARUM SANCTUM) or Solomon's Lily of Palestine—This magnificent flower often measures one foot in length and five to eight inches in width. Beautifully shaped and turned, sweet scented. The color is of the richest velvety purple-black, while the outside is of pleasing green. Our fine bulbs are sure to bloom if planted in rich soil two inches below the surface. Price, 15 cts. each.

WHITE CALLA, OR LILY OF THE NILE—This old favorite is too well known to require any description. We offer dry roots, as they are superior for forcing and Winter-flowering purposes; they come into bloom quickly and require less room, making less foliage. Extra large, dormant roots. Large size, 25 cents each. First size, 10 cents each; three for 25 cents.

SPOTTED LEAF CALLA—(Richardia Alba Maculata)—This plant is always ornamental, even when not in flower, the dark green leaves being beautifully spotted with white. In other respects the plant is the same as the favorite White Calla. Smaller habit. 10 cents each; 3 for 25 cts.

Begonia Rex, or King of Begonias

The King of foliage plants, far out-showing all others. It seems to feed on the rich metals of the soil, and spreads their lustrous tints over its leaves. Give them a soil composed of rich loam, woods earth and sharp sand. They require a warm moist atmosphere and a shady situation; suitable for warden cases. Do not allow the sun to strike the leaves while wet, and do not over-water. We have twenty-five leading and distinct kinds that we will furnish for 15 cts each, or 4 for 50 cts., 10 for \$1.00. They are the handsomest of all Begonias, and most admired by all. Try a set and see how pretty they are.

Single Flowering Tuberous Begonias.

For Pot Plants, are now classed among the handsomest Flowering Bulbs. Bloom continually throughout the Spring and Summer, and outlive in color the most brilliant and dazzling Geranium flowers; and from the time the first blossom appears until all growth is stopped by frost they are never out of bloom, and are borne in such profusion that the rich green foliage is almost hidden under the load of blossoms. For bedding plants outdoors, or for pot culture in the house, the Tuberous Rooted Begonia can not fail to give satisfaction, even to the most inexperienced, as they require little more attention than the Geranium. We have fine bulbs in the following colors: Crimson, Scarlet, Rose, Yellow, Pink and White.

TO COLOR, 15 CENTS EACH, TWO FOR 25 CENTS.

SPECIAL OFFER—For \$1.00 we will send you 12 Large Flowering Bulbs, assorted colors only; or, for Fifty Cents we will send you 6 Fine Bulbs, assorted colors only.

Each new leaf is enclosed in a long coral-red envelope, looking like a great, red flower bud. A very fine plant for the lawn, bay window or house decoration. Thrives under any condition in dark or light rooms. Our plants are the finest ever offered for double the money. Price, fine strong plants, 50 cents each; large plants, \$1.00.

GOLDEN STAR OXALIS ORTGIESI—Few new plants give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is in full bloom every day in the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium in any situation. Is a shrubby plant, like a Geranium or Fuchsia without buds, in which respect it differs from other Oxalis. It grows about twelve inches in height, branching freely and loaded at all times with clusters of bright, golden, star-shaped flowers, which do not close at night, like other Oxalis. Beautiful as the flowers are, it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three-lobed, dark, olive-green above a beautifully shining metallic crimson-purple underneath, and wine colored stem. Price, 15 cts. each; 2 for 25 cts.

The flower is composed of two wide and two narrow petals, the wide ones being the broadest at the base, and terminating in a rounded point, and are of a beautiful, bright rose color.

WETTSTEINII—A grand new Red Coral Begonia. The flowers resemble Rubra, and are just as freely produced, but the foliage is entirely distinct. The leaves are oblong, of a deep green color, shading with crimson. Flowers deep coral red, formed in pendant panicles.

ZEBRINA—Compact grower, with long, pointed green leaves, a silver tinge along the midrib, underside of leaves and stem a pale pink.

THE MAGNIFICENT DECORATIVE HOUSE PLANT, GREVILLEA ROBUSTA, OR THE AUSTRALIAN SILK TREE—A magnificent plant for decorative purposes, of rapid, easy growth, finely cut foliage, rivaling a rare fern. The young growing leaves are a light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it attains magnificent proportions and produces an abundance of bright orange colored flowers. We offer two sizes of this beautiful plant. Nice plants, 10 cts., large size 25 cts.

CROTONS.

ALLAMANDA WILLIAMSI.

CLERODENDRON BALFOURII.

OTAHEITE ORANGE.

THIS valuable and distinct variety is a dwarf, compact grower, with glossy, deep green foliage, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much-sought-for blooms of Southern orange groves. Fruits immediately after flowering, bearing fruit about one-half the size of the ordinary orange, retaining in a marked degree their sweetness. This unique orange cannot be equaled as a Winter blooming pot plant for house culture, and is of the easiest culture. Flowers and fruits when but twelve to fifteen inches high. As a pot plant this is one of the most novel that can be grown. Price, 10 cts. each; large strong plants to bloom and bear profusely at once, 25 to 40 cts.

SWEET-SCENTED VIOLETS.

Price, 10 cents each, the 3 sorts for 25 cents.

THE NEW EVER-BLOOMING VIOLET, LADY HUME CAMPBELL—This grand new Violet is a true perpetual bloomer, and enormously productive, the flowers are very large, often the size of a half dollar, perfectly double, like little Roses; very fragrant, and of the most lovely azure-blue color.

SWANLEY WHITE, or QUEEN OF FRAGRANCE—This beautiful new double white Violet is unquestionably the

finest double white variety in existence, and is a decided acquisition even to the smallest collection of plants.

THE CALIFORNIA—Grand new variety. Is a sturdy grower with dense, heavy foliage, entirely free from disease. Flowers single, intensely fragrant. Color, a clear, violet-purple that does not fade. The flowers are as large as a silver dollar, are borne on stems ten to twelve inches long.

ASPARAGUS TENNUISSIMUS—We consider this extremely elegant plant to be the greatest acquisition for decorative purposes or for cutting from, that has been offered for many years. It is a climber, and is grown and can be strung like Smilax, but the extreme delicacy of the foliage cannot be described. It is as fine and graceful as Asparagus, finer than the fronds of the most delicate fern. The sprays will be in great demand for bouquet and other floral work, as, in addition to its gracefulness, it does not wilt like Smilax, but remains bright and green for weeks. Price, 15 cents each; two for 25 cents.

ASPARAGUS PLUMOSUS NANUS, OR LACE FERN—One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken web. Lasting and retaining their freshness for weeks. We consider it the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture, and richness of color. Price, 25 cents each.

CLERODENDRON BALFOURII—Much ado has been made over certain climbers of late, but scarcely can any compare with this. No plant in cultivation displays such colors of creamy-white and scarlet and such profuse flowering. Young plants are often entirely covered with bloom. When only a foot high as many as 20 to 30 flowers can be counted, and this, of course, increases as the plants become older. An engraving published in an English horticultural paper shows a plant with more than 400 flower bunches. As it requires no care to grow, every one can be sure of perfect success and a beautiful effect with but little trouble. Thrives in a rich soil and may be planted out in Summer. Price, 15 cents, 2 for 25 cents.

GLOXINIAS—Most charming of greenhouse plants, of dwarf habit. Their flowers are produced in greatest profusion—often 3 to 4 inches across—and are of the most exquisite and gorgeous colors, many of which are magnificent spotted, mottled and blended. Under the commonest culture they bloom continuously for months, and by starting at intervals a succession of their splendid flowers may be had nearly the whole year round. They are also exceedingly useful, if planted out in a warm frame, shaded from the bright sun, for growing for cut flowers during the Summer months. Fine bulbs 15 cents each; two for 25 cents; five for 50 cents.

CAMELLIA JAPONICA—We have a good assortment of extra large plants in the following colors: Double White, Blush Rose, White and Pink Stripes, Flesh Color, Bright Crimson and Salmon Rose. Price, 75 cents each.

EPIPHYLLUM, or Lobster Cactus. Price 10 cts. each.

NEW DWARF ALLAMANDA, Allamanda Williamsii—This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole Summer, and, with proper management, in the Winter also. The flowers are from $3\frac{1}{4}$ to $4\frac{1}{4}$ inches in diameter, of a very rich, yet delicate tint of yellow, and are deliciously scented. Fine plants 15 cents each, two for 25 cents.

SWAINSONIA ALBA—A most desirable everblooming plant, with pure white flowers, produced in sprays from 12 to 20 blooms resembling a Sweet Pea. As a decorative plant for the window or conservatory we know of nothing that will give as much satisfaction as the Swainsonia. Its easy culture, growing in almost any light position, its freedom of bloom, rarely ever being out of bloom, and beauty of the flower and entire plant will undoubtedly make this one of the most popular plants in cultivation. Price, 10 cents each.

STEPHANOTIS FLORIBUNDA—One of the rarest and most charming climbing house plants, growing rapidly, with long, glossy, deep green foliage, producing clusters of pure white, deliciously fragrant flowers. 20 cts. each.

AZALEAS—Are the most gorgeously-blooming, together with the showiest of all greenhouse plants. Colors vary from purest white to deepest crimson in untold variations. Soil should always be packed hard when transplanted. Fine large plants, 75 cents each.

CROTONS—The Crotons are among the finest decorative foliage plants known. The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion, others broad and short, oak-leaved. Some recurved very much, others twisted, cork-screw like. Crotons love heat, sunshine and moisture. Price, 10 cts. each; 3 for 25 cents.

GENISTA CANARIENSIS—(Fountain of Gold.) The drooping branches are covered with delicate sage-green foliage, and every twig is tipped with a long raceme of exquisite pea-shaped blossoms of a pure canary color, almost hiding the foliage. Price, 10 cts. each.

SILVER STRIPED PEPEROMIA—So thick and waxy-like are the leaves of this parlor gem that nearly every one takes it to be an artificial plant. The leaves are distinct, variegated, white and green, and have the appearance of being powdered with frosted silver. Price, 10 cents each.

The demand for this particular kind is perhaps five times that of any other. Leaves large, fan-shaped, of cheerful green color. Plant of hardy constitution, and adapted to all decorative purposes, within or without doors; appreciated by all the plant-loving community. Miniature Fan Palm, LIVISTONA ROTUNDIFOLIA.

Resembling Latania Borbonica, but very much more dwarf and compact in habit, and having much smaller and hand-somer leaves, which are of the most perfect shape. The leaves are circular in form, only about eight to ten inches in diameter, and deeply toothed. Very small plants throw up an unusual number of these beautiful leaves, furnishing and finishing the plant, making very perfect specimens when only a foot high—plants of this height having as many as a dozen well developed, perfect leaves. It makes a lovely plant for table decoration. No Palm makes such perfect specimens when small, so it has a distinct place among decorative plants and is a charming addition to the limited number of plants really adapted for house decoration. Very scarce and rare. Our price for nice young plants, showing character very nicely,

THE "MOREL" FAMILY OF CHRYSANTHEMUMS.

THE great favor with which the original VIVIAND MOREL of this family has been received ever since its first introduction, and the fact that it has received more prizes than any other variety in the long list of "Mums," together with its progeny, has led us to arrange them in a group of such varieties that comprise this family, and our patrons of the past and future will be sure of getting something that is simply grand and magnificent when they secure this set, and a family that will always maintain their position as prize winners wherever exhibited. They are the very best of commercial varieties, always sell on sight and command the highest prices.

SPECIAL OFFER—We will send the Morel Family, of twelve varieties, for \$1.00, net.

Chas. Davis, The Apricot-Yellow Morel.

An imported Chrysanthemum. Color, light yellow, tinted rich apricot; a sport from the well-known, extremely popular variety, Viviant Morel, having the same long petals, loosely arranged, forming a flower of immense size. It flowers early and very freely; in habit of growth and style of foliage it is perfect. Price, 10 cents.

Viviant Morel, The Pink Morel.

The great favor with which this flower was received of late years has led us to offer it again. The pleasing pink tones of the flower deepened by claret tints is very lovely. It is of largest size, regular in form, reflexed, very full center, with excellent stem and foliage, an ideal flower in every way. Always sure to get first prize at the exhibitions. Price, 10 cents.

Golden Gate, The Tawny-Yellow Morel.

Tawny yellow, quite distinct and strikingly handsome spreading flowers, slightly whorled; regular form, stout stem, broad, long petals; fine exhibition bloom of great size. Price, 10 cents.

Md. Chas. Molin, The White Morel.

This is termed in Europe the White Viviant Morel. We had this variety 11 inches across; color, pure white; a rather tall grower, but sturdy; an unequalled exhibition variety. Price, 15 cents.

Edith Smith, The Cream-Colored Morel.

One of the very finest introductions of 1895, and belonging to the general type of V. Morel; an immense bloom on an elegant stem; color, like that of Silver Cloud, pale pink and sulphur, changing to cream. Price, 15 cents.

Gold Standard, Early Yellow Morel.

A mammoth bloom, measuring sixteen inches across. Color, style and form of Morel Golden Wedding, but more intense and deeper shade; petalage the most profuse possible, one of the largest reflexed, clear yellows, habit strong and robust. Extra early. Price, 20 cents.

Mme. Carnot, Largest White Morel.

The largest white Chrysanthemum extant; form of V. Morel; pure white; a very vigorous grower; one of the best, and found in most of the winning stands in England. Price, 20 cents.

Mrs. E. Buettner, New Yellow Morel.

Midseason. Clear bright yellow, of fine reflexing V. Morel type; full and informal; stem and foliage both excellent. A grand variety for cutting; must be added to first-class commercial yellows. Price, 20 cents.

Inter-Ocean, Pearl Colored Morel.

The color is a delightful, glistening, pearly white light suffusion of pink; petals of great substance, recurving, forming a flower eight inches in diameter; the stems are very stiff, the foliage extremely handsome and carried close to the flower. Price, 10 cents.

Pure Crimson Morel, Fisher's Torch.

This grand variety excels any other of its color which is a rich bright red passing to the most brilliant velvety crimson imaginable. The flame like flower is borne on long stiff stems which gives it the appearance of a flaming brand from which its name. Well clothed with the handsomest foliage. Price, 15 cents.

Admiral Ito, The Amber Colored Morel.

A very handsome flower of large size that blooms very late, of sturdy constitution; color, a beautiful amber yellow; an excellent variety. Price, 15 cents.

Yanoma, The White Christmas Morel.

Innumerable inquiries come every year for the best very late white. For the present, Yanoma must be accorded this place; beside the fact that the flower is very beautiful and substantial, it is very easy to bring to perfection, which is a great point in its favor, as many of the late varieties are poor, defective growers; the form is rather flat, petals reflexing to the horizontal, but not drooping at all; what we call the pure rosette form; it is above the average in size, and a beautiful clear shade of white. November 30th and later. Price, 20 cents.
